Sir:

In response to the Office Action dated October 2, 2002, please amend the above-identified application as follows:

IN THE SPECIFICATION:

The specification is changed as follows:

Page 22, the second full paragraph was amended as follows:

Further, Figs. 8 to 13 show the second embodiment for fabricating thin annular parts using a hot runner type four-cavity mold based on a valve gate system. Fig. 8 shows only a half of the four-cavity injection mold, omitting the other half. The following description is based on the half of the mold with two cavities shown in Fig. 8, and a description of the other half is omitted.
